DEAR TECHNOCRATS

Greetings from SRIHER!

On behalf of the organizing committee, it is our great pleasure to invite you all to **National conference of Ramachandra Imaging Technology Education, NC-RITE 2025**, which will take place at **Sri Ramachandra Institute of Higher Education and Research, SRIHER, Chennai, from 14th-16th March 2025 (including the Pre-conference workshop on 14 March 2025)**.

NC-RITE 2025 will highlight not only the basics and fundamentals of various medical imaging techniques, but also emphasise upon the recent breakthroughs, thus empowering imaging technocrats with enhanced knowledge.

Over the past few years, rapid strides and remarkable advancement has been made in the field of medical imaging. Artificial Intelligence has begun to revolutionize diagnostic capabilities and interpretation of imaging data in radiology. Our academic sessions comprising **Scientific lectures, Interactive Sessions, Case studies and Quiz** targeted exclusively towards imaging technocrats will address these present and evolving facets of imaging in radiology.

NC-RITE 2025 aims to nurture the current and next generation of technocrats by organizing **workshops on X-ray instrument accessories, Image-guided interventions, Ablation techniques and MRI hardware**. Additionally, the workshop will delve into yet another exciting scope for technocrats **i.e. Virtual Reality in Radiology**.

We will also be hosting a hands-on workshop on **Basic Life Support** with mannequins, which would be of immense benefit in providing essential skills to manage patient safety in critical situations, aligning with the best practices in healthcare technology.

Moreover **NC-RITE 2025** features an **Imaging Accessories Gallery** showcasing a remarkable array of Radiology equipment accessories, instruments, Contrast agents, Intervention accessories, and CT & MRI hardware accessories. This curated exhibit also holds detailed descriptions, making this a valuable learning experience, especially for students and budding technocrats.

"RITE Fun time" has been organized for the delegates to unwind themselves after intense conference proceedings, followed by **"Food feast"**, a delightful culinary experience.

SRIHER, being accredited by **NAAC, NABH, NIRF and ETAP** (European Training Assessment Programme), continues to uphold International standards in patient care, safety and cutting-edge medical technology.

We warmly invite you to submit abstracts for **Posters / Oral presentations** and take part in this collaborative learning experience, where technology meets healthcare, inspiring the next generation of radiology professionals.

Looking forward to welcome you at RITE 2025, SRIHER....

TOPICS TO BE COVERED IN THE CONFERENCE

- Radiographic Imaging Techniques
- Recent advances in CT
- Newer techniques in MRI
- Advances in Ultrasound Imaging
- AI in Radiology
- Interventional Radiology
- Radiological Physics
- Radiation safety
- Hybrid / Fusion Imaging
- Radiological Contrast
